

SECURITY

SECURITY

SP+ Security combines an in-depth knowledge of security and public safety policies, practices and procedures with a detailed understanding of diverse client environments. Whether providing around-the-clock security for commercial and manufacturing, neighborhood shopping centers, residential communities or office complexes, or offering an array of public safety services, we deliver the best security technology and protection on the market.

INNOVATION **IN** OPERATION®

Complete Security Coverage

We provide a comprehensive package of core services designed to meet a client's specific security goals and objectives.

Security Guards and Patrols

We train our uniformed guards to be ambassadors for the properties they serve while at the same time addressing our clients' security concerns. Our extensive training and development strategies are designed to deliver exceptional service and protection for our clients.

- > Training
- > Automated scheduling

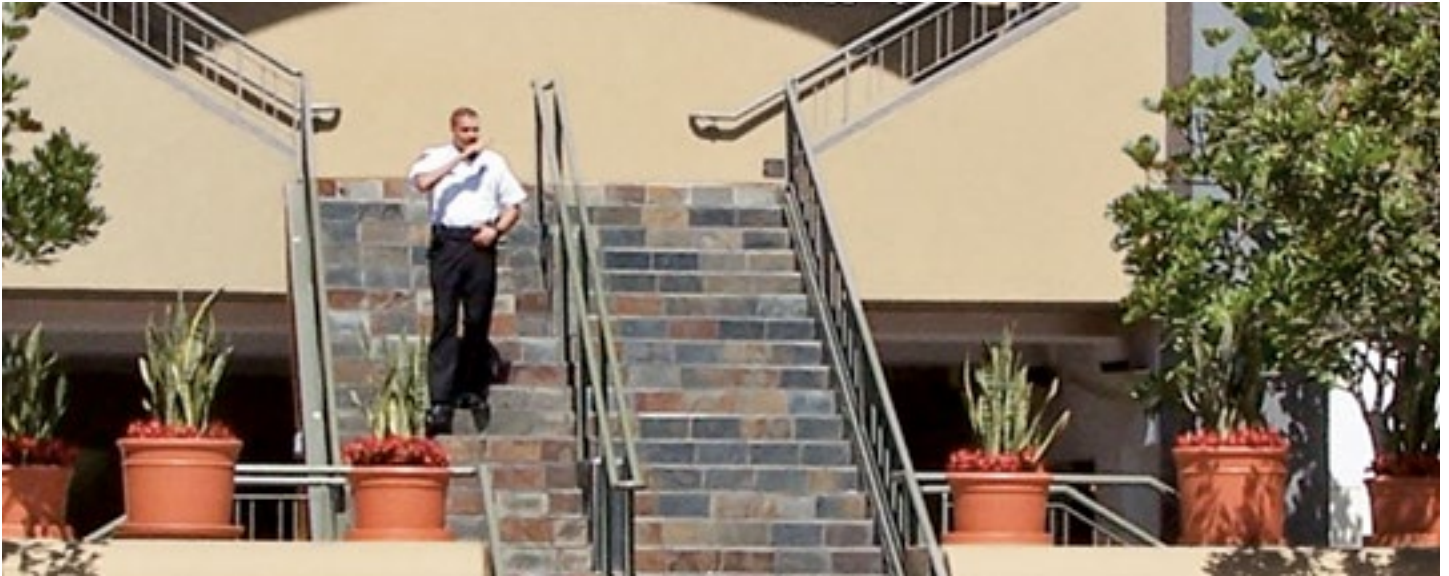

Employee Recruitment

Our hiring process gives us access to the best security personnel available. We verify that our candidates hold all required licenses before employment commences.

- > Orientation programs
- > Public safety training
- > Job certification requirements

Customized Services

We understand the various security and public safety risks that can occur in different environments and work closely with clients to develop solutions that will safeguard people and their property.

- > Integrated security systems
- > Automated real-time reporting

Technology Integration

We work closely with clients to develop a security system that is economical, efficient and appropriate for the property involved. For property managers or owners who manage their properties remotely and are not physically present on site, we can facilitate their use of remote monitoring systems through any computer having Internet access.

- > Remote monitoring
- > Digital CCTV
- > Access control
- > Vendor partnerships

SP InstaTrac®

Our SP InstaTrac® system provides clients with secure access to a web-based application that includes real-time incident reporting, online issue and dispatch center monitoring, facility maintenance tracking and risk management assessment.

- > Integrated smartphones
- > Online issue monitoring
- > Real-time dispatching
- > Risk management assessment

INNOVATION IN OPERATION®

Security Guard Scheduling

Our systems allow us to efficiently oversee time and attendance for hundreds of security guards at multiple locations. We coordinate weekly payroll distribution and shift scheduling while staying in compliance with local, provincial and federal government employee regulations.

- > Reduced overtime costs
- > Payroll integrity
- > Time and attendance monitoring
- > Multiple location capabilities

Performance Management

We provide electronic daily activity reports so our clients can review and monitor events and activities at their property. We also provide clients with a daily list of our security guards' case reports.

- > Electronic reporting
- > Daily activity reports
- > Security summary reports
- > Repair/maintenance reports

Learn More About SP+

We're continually on the lookout for the latest technologies – including global positioning systems, customer web portals and digital operations – to improve our services, efficiency, productivity and the client experience.
