Fleet of Services

We operate a fleet of over 750 shuttle vehicles that transports more than 34,000,000 passengers each year.

Fleet Procurement

Our team analyzes transportation systems and designs fleets that meet their specific requirements, including buses that use alternative fuels.

- > Procurement of shuttle vehicles
- > Installation of equipment
- > Vehicle financing
- > Graphics to match client branding

Vehicle Maintenance

We develop and implement fine-tuned programs for vehicle maintenance, washing, cleaning and fueling, with mandatory pre-trip and post-trip inspections.

- > Preventive maintenance
- > Fluid analysis programs
- > HVAC readiness programs
- > Electronic brake testing

Route Scheduling

Our team helps clients choose the quickest, safest and most cost-effective routes to get passengers to their destinations. We also create alternative routes to accommodate traffic fluctuations and road closures.

- > Fleet utilization schedules
- > Live GPS monitoring of buses
- > Dispatcher/bus communications
- > Passenger logs

Staffing and Training

Our team has years of industry expertise and a passion for providing superior transportation services.

- > Employee training programs
- > Employee incentive programs
- > Thorough review of employee performance

Technology Integration

We ensure passengers arrive at their destinations safely and on-time by utilizing state-of-the-art fleet management tools.

- > Web-based GPS systems
- > Automated passenger counters
- > Camera systems

Event Logistics

SP+ Event Logistics helps clients around the world become perfect special event hosts through our master transportation planning, advisor and provider services.

- > Transportation plans
- > Traffic and parking modeling
- > Systems management
- > Consulting services

Performance and Vehicle Reports

We prepare a wide variety of reports to monitor transportation operations and performance.

- > On-time performance reports
- > Maintenance reports
- > Passenger count reports
- > Customer surveys

Learn More About SP+

We're continually on the lookout for the latest technologies – including global positioning systems, customer web portals and digital operations – to improve our services, efficiency, productivity and the client experience.
